

## This Is Where We Live: A Novel

Claudia and Jeremy, a young married couple (shes an aspiring filmmaker, hes an indie musician), are on the verge of making it. Her first film was a sensation at Sundance and is about to have its theatrical release; hes assembled a new band and is a few songs shy of an album. Theyve recently purchased their first home a mid-century bungalow with a breathtaking view of Los Angeles with the magical assistance of an adjustable-rate mortgage. But a series of seismic events the tanking of Claudias film, the return of Jeremys manipulative ex-girlfriend, and the staggering adjustment of their monthly mortgage payments deal a crushing blow to their dreams of the bohemian life and their professional aspirations and make them question their values and their shared vision of the future.
