

## A Voice from the Shadows

A Voice from the Shadows is a collection of poems and short stories that I have written over the past ten years. I hope you enjoy them because they are my own works of art and are 100% original. This book was written for those who are going through depression. It is to let them know that they're not alone and other people also feel the way that they feel. Their thoughts are not unique, and they will get through it because I did.
